Mục tiêu nghề nghiệp

I am a Computer Science student with a strong interest in building modern and responsive web applications. Through multiple academic and personal projects, I have gained practical experience in both frontend and backend development, especially using technologies such as HTML, CSS, JavaScript, ReactJS, PHP, and Laravel. I enjoy solving problems, learning new technologies, and collaborating with others to deliver clean, maintainable code. I am eager to contribute to real-world products and continuously improve my skills in software development.
